

Year 1 Spring Term 2 - 'Family Album' Maths Learning

Please have a go at completing as many of these activities as possible. Do as much as your child can cope with. Thank you for your continued support!

Number bonds

Practise your number bonds to 20. Learn them off by heart too! You could also write these down on some paper. Make a poster of your learning - be as creative as you wish!

Espresso - Maths

Please make use of the 'Espresso' Maths videos/resources to support your child's learning.

Username - student17917

Password - pupils

To find the Maths resources, click 'Key Stage One' and then click 'Maths' in the drop down list. You will find a variety of videos and resources that cover each of the Year 1 Maths elements.

Money - shopping

Use some items from your house and create some price tags for them. Play 'shop keepers' with an adult and add and subtract the prices.

Shape

Make 3D shapes from household items such as: cocktail sticks, sweets, straws, spaghetti and marshmallows! Photograph your work and if you can, label the faces, edges and vertices (corners).

3D Shapes

Time - clocks

Have a go at making a clock. The polystyrene on the bottom of a pizza is ideal. Cut out arrows (one small, one large) and write all the numbers in the correct places. Practise counting in 5s around the clock. Can you tell the time, the hour and half past the hour?

Venn Diagrams

Have a go at creating a Venn Diagram for different animals. Sort them by omnivore, carnivore, herbivore, land, sea, can swim, can fly etc. Choose 3 or more categories.

Addition and Subtraction

Practise adding 1 more and 1 less using practical objects (cubes/lego bricks etc). Start at different numbers; count forwards and backwards in multiples of 1s, 2s, 5s and 10s. Please stick below 30, unless you feel your child is capable of more.
