

Year 1 – Topic Learning – Week beginning 29th June

Please have a go at completing as many of these activities as possible. We would normally teach one Topic lesson per day in school, so this is equivalent to what your child would normally be doing. Thank you! Please feel free to take a picture of any of the activities and email them to Miss Morton or Mr Gaffney – we love getting updates on what everyone is doing!

PSHE

As a school, we have started an exciting 'Hope Project'. It is designed to support children in gradually returning to a form of 'normality'. Have a think about and discuss a happy day you have recently had. Can you write some sentences about this day and draw a lovely picture too? We can't wait to hear all about your happy day! Please also make use of the resources on our school website, as appropriate for your child, linked to our 'Hope Project'.

Espresso – Topic

Please make use of the 'Espresso' Topic videos/resources to support your child's learning.

Username – student17917

Password – pupils

To find the Topic resources, click 'Key Stage One' and then click the subject you would like to use from the drop down list. You will find a variety of videos and resources that cover many topic aspects.

Science

Have a think about your materials work over the last few weeks. Can you talk about different materials and their properties? Have a go at building a house out of a variety of materials. You could use spaghetti, pasta, shreddies, marshmallows and even toothpaste to stick it all together! Be as creative as you can. Write a list of the materials you have used. Remember to send us a photo of your finished house!

P.E.

Make the most of the 'Great Outdoors'! Can you set yourself a challenge? This could be walking a set amount of steps per day; or creating an exercise routine to complete each day. Let us know what you decide to challenge yourself with! Try to complete your challenge each day for the week. Record your challenge on some paper to share with us. Have fun!

Geography

Continue to explore and make use of Google Maps. You could even explore your favourite place to go! Think about the phrase 'Birdseye view'. Discuss with an adult what this means. Can you draw a Birdseye view map of a room in your house? Label it and draw symbols/pictures for the different things in the room.

Art

We know how much you love Art in Year 1! Can you have a go at using a variety of media (e.g. paint, crayons, chalk etc.) to create an 'outdoor scene'? This can be any outdoor scene of your choice. Be as creative as you can. We would love to see your finished work!

R.E.

Think about the Jewish religion and the festival of Hannukah. Discuss facts you can remember about Hannukah. Have a go at making a lovely Hannukah card to celebrate the Jewish festival. Be as creative as possible!
