

Year 2 Home Learning - Topic - Week Beginning 22nd June 2020

Here are some suggested activities to do with your child at home that are linked to our current learning. Thank you for your continued support.

Science- Under the Sea

Last half term we looked at habitats and food chains. As part of our learning about the seaside, could you find out about life under the sea? You could find out about an under sea habitat, different sea creatures or the different levels of the oceans. Present your work in any way you choose.

History/Art

In the past children used to watch Punch and Judy puppet shows at the seaside. Can you write or perform your own puppet show?

P.E.

Now that you have created your own exercise routine, can you create an advert for it? You could do this in the form of a poster, booklet, power point presentation, or even film a TV commercial.

Espresso - Topic

Please make use of the 'Espresso' Topic videos/resources to support your child's learning.

Username - student17917

Password - pupils

To find the Topic resources, click 'Key Stage One' and then click the subject you would like to use from the drop down list. You will find a variety of videos and resources that cover many topic aspects.
