

Year 1 - Topic learning - Week beginning 13th July

Please have a go at completing as many of these activities as possible. We would normally teach one Topic lesson per day in school, so this is equivalent to what your child would normally be doing. Thank you! Please feel free to take a picture of any of the activities and email them to Miss Morton or Mr Gaffney - we love getting updates on what everyone is doing!

PSHE

As we approach the end of the school year (it has been a rather different one!), we would like you to think back to everything that we managed to do in Year 1. Can you create a poster of all of your favourite things that we did in Year 1? Write some sentences to go with your pictures too. Please remember to send these to us, we would love to see them!

Espresso - Topic

Please make use of the 'Espresso' Topic videos/resources to support your child's learning.

Username - student17917

Password - pupils

To find the Topic resources, click 'Key Stage One' and then click the subject you would like to use from the drop down list. You will find a variety of videos and resources that cover many topic aspects.

Science

As we approach the summer holidays, we are all hoping for some lovely, sunny weather! We all love to spend time in the sunshine, but it is very important to keep safe. Can you research how to keep safe in the sun? Create a poster or a leaflet to tell your family and friends how to keep themselves safe in the sun. You can set out your poster or leaflet however you'd like. Have fun!

Computing

It is lovely to see so many of you using Purple Mash regularly. We have received some fantastic work, thank you and well done! This week, we would like you to make use of Purple Mash and the '2simple' tools to create a lovely summer themed picture. This could be a beach scene, a garden scene, a picnic scene etc. Be as creative as you can! Remember to save your work so that we can see it.

Geography

It is nearly the summer holidays! Could you have a think of some places you would like to visit over the holidays? This could be the park, the beach, play area or even your favourite town/village! Write a list of all of the places you would like to visit. Then, over the summer you can tick each place off your list when you visit it! Remember to draw some pictures too. When you have visited a favourite place, can you draw a simple map to show us what it was like?

Art

We know how much you love being Artists in Year 1! This week, we would just like you to explore and be as creative as you can. Have a go at painting, drawing, cutting, sticking etc. You can create whatever you'd like! We can't wait to see what you get up to.

P.E.

This week, we would like you to make the most of the outdoors (hopefully no rain!). Please have fun taking part in different sporting activities. You may want to do some running, walking, playing games etc. Send us some photos of what you get up to! Remember - exercise is important and good fun!
