

Year 2 Home Learning - Topic - Week Beginning 6th July 2020

Here are some suggested activities to do with your child at home that are linked to our current learning. Thank you for your continued support.

Hope Project - Positive Steps

In care club children have been looking at some of the activities from our Hope Project, which help you to look to the future positively. Can you record some of the activities you have enjoyed during lockdown, you could record them on the rainbow we have included in this week's pack or could you draw your own rainbow or present them in any way you like. (Lots more ideas can be found on the school website).

Art

Can you find some pictures of things you might find at the seaside, or you might have some things at home e.g. shells, bucket and spade, beach ball, deck chair. Can you complete a still life drawing of some of these objects, think about the colours you can see or just use pencil and think carefully about shading.

P.E. (Hope Project)

Continuing on from our work on keeping fit and healthy could you fill in the healthy chart that is also from our Hope Project. Could you include any exercise or fruit and vegetables that you eat over the week? You can use the chart that we have included in the pack or you can create your own.

Espresso - Topic

Please make use of the 'Espresso' Topic videos/resources to support your child's learning.

Username - student17917

Password - pupils

To find the Topic resources, click 'Key Stage One' and then click the subject you would like to use from the drop down list. You will find a variety of videos and resources that cover many topic aspects.
