We made leaflets

WE NEED YOUR HELP!

Top tips from Helmsore Eco Team.

We're dedicated to seeing Helmsore become a more environmentally friendly school community. To help us on our way to becoming more eco-friendly, we have written some top tips for you to help us.

Thank you for your support.

TRANSPORT

Finding more environmentally – friendly ways to travel. Our aim is to encourage parents and pupils to use other ways of getting to school other than driving a vehicle, like walking or cycling.

ENERGY

Reducing energy use and investigating greener energy sources. The goal is to help people use less energy by doing simple things like switching off lights when they are not needed.

POLLUTION

When dropping off or picking up your children, particularly if you're waiting in your car around the school grounds, please consider turning off your engine. This small act can significantly help in keeping the air around our school cleaner, creating a healthier environment for everyone.

LITTER

Reducing the amount of litter in our local area. We want to see less litter in and around school. The ECO team have carried out weekly litter picking in our local area. We would everyone to put their rubbish in the bins in the local area.

REUSE

Please use re-useable containers for snacks to reduce the rubbish we throw away.
